Business Consultation 'Speed To Market' Keynote With Glenn Dietzel: How To Create And Sell High End Programs, Command Top Dollar For Them, Crush Your Competition And Absolutely Dominate Your Niche Online

"SPEED TO MARKET" BUSINESS CONSULT KEYNOTE WITH GLENN DIETZEL

STEP 1 **READ THIS FIRST before Attending Glenn's Keynote:**

Here's How to Prepare for Glenn's 'Speed to Market' Business Consultation Keynote:

You Must Know These Three Critical Points Below:

1. Realize that you do NOT have the kind of credibility that allows your target market to trust you without them ever consciously realizing they are doing this. In today's keynote, Glenn will reveal his secret process for building **two important levels of credibility that operate outside of your customer's awareness.**

Fact#1: Your target market does NOT know who you are, and they simply DO NOT care!

Fact#2: You have less than 1 second and 4 seconds online respectively to build these two (2) important levels of credibility that will ensure you are positioned to sell your ideas for top dollar.

2. Realize that you have no way of executing your ideas into the market place using a 'Speed To Market' system that will have your ideal clients demanding your highest priced programs and services, but will also eliminate your competition—in less than 3 minutes.

Fact #3: The biggest problem that entrepreneurs have today is that they over-think and hence fail to execute quickly enough to **prevent these two real threats:** unethical marketers online stealing your ideas; or ethical business people transforming your ideas and buying out an existing company and beating you in the market place.

3. Realize that you have NO fail-proof system that has worked in over 120 industries to properly identify, and value your ideas into the greatest wealth transformation today—a system that is not just for big companies anymore—a process to turn your value into Intellectual Property.

Fact #4: If you still think that Intellectual Property is only for big companies, you are missing out on the greatest wealth creating opportunity that is available today for entrepreneurs—it all begins with understanding that the greatest real estate opportunities lie NOT in the physical world, but what lies in your head and strategically positioned online.

Fact #5: You must have an arsenal of simple intellectual weapons all perfectly aligned inside of a system that allows you to eliminate your competitors—24/7—**all in the name of education** to provide you a totally unfair advantage in today's market place.

Glenn, I thank you for what you bring to me personally and to my family in letting us share our story.”

"Before I met Glenn I had been through other programs, but struggled to make money due to my lack of focus and having no concrete plan of action. Wow!! This is all I can say since working with Glenn. Last year I struggled though out the year despite making some decent money as an entrepreneur. Within the first three months of working with Glenn I was able to make over 18 times what I made in the previous year. In fact in the next week I will actually double the amount of this again. This is truly outstanding! This is because of the execution and plan of action that Glenn has given me. I have been through other programs and never received the kind of focus and how to get something done like you have showed me to do."

UPDATE: Shawn did multiple six figure income this year because of Glenn's coaching.

—**Shawn Wiederin, IT & Business Consultant Iowa City, Iowa**

He is a great, compassionate coach."
